

NWAPRS SSIDs and SENDTO SETTINGS

The **old** method to identify your station on APRS was determined by your SSID setting and primarily was used for remote or portable stations that were not running the APRS software.

For stations operating the APRS software, use the software setting to determine your symbol as it will appear on the maps.

Here are several common SSID settings for NWAPRS:

- CALLSIGN (and no SSID) = Your primary home station
- CALLSIGN-1 = Your primary home station PBBS (generally not used for APRS)
- CALLSIGN-2 = Not assigned, ok for any use
- CALLSIGN-3 = Not assigned, ok for any use
- CALLSIGN-4 = Not assigned, ok for any use
- CALLSIGN-5 = Not assigned, ok for any use
- CALLSIGN-6 = Not assigned, ok for any use
- CALLSIGN-7 = Assigned to either TH-D7A or TM-D700 radios, to let other users know that one liners may be sent, but not to exceed with long messages that cannot be processed.
- CALLSIGN-8 = Secondary SSID for a mobile tracker or mobile station
- CALLSIGN-9 = Primary SSID for a mobile tracker or mobile station
- CALLSIGN-10 = Primary SSID for a WIDE digipeater
- CALLSIGN-11 = Primary SSID for Balloons, or Secondary SSID for Wide digipeaters
- CALLSIGN-12 = Secondary SSID for mobile/portable station and Wide digipeaters
- CALLSIGN-13 = Not assigned, ok for any use
- CALLSIGN-14 = Not assigned, ok for any use
- CALLSIGN-15 = Primary TCPIP connection only, no radio connected

The new method to identify your station on APRS, which is NOT running the APRS software, is determined by the TNC SENDTO field as part of the outgoing path.

e.g. LTP1 GPSLV via RELAY,WIDE3-3 (the LV results in a van symbol)

Commonly used SENDTO characters:

- | | |
|----------------------------------|------------------------|
| BB = Police or Sheriff's vehicle | LF = Fire Truck |
| BH = Small aircraft | LJ = Jeep |
| BK = Snowmobile | LK = Truck |
| BP = Dot | LP = Puppy/Dog |
| MT = Motorcycle | LS = Powered Ship/Boat |
| MV = Car | LU = 18-wheeler |
| PC = Canoe | LV = Van |
| PO = Balloon | SS# = Numbered Ship |
| PR = Recreation Vehicle | LE = Horse |
| PU = Bus | LB = Bicycle |
| PX = Helicopter | LA = Ambulance |
| PY = Sail Boat or Yacht | HV = Large Aircraft |
